Bank Marketing (Campaign)

- I have done final project individually
- Name : Mohammad Aminian
- Email: aminanmuhamad24@gmail.com
- Country : Iran
- College/Company : Tehran Kharazmi University
- Specialization : Data Science

Problem Description

Data Cleansing and Transformation is the most fundemental step in Exploratory Data Analysis.

This Process may contain:Remove of N/A values and duplicates ,outlires analysis,

data scaling and encoding features.we work on

all of these on .Ipnyb of the next repo link.
